

Administering the back office

Administering the back office

The "Administration" menu contains a special set of preference pages: rather than giving options that impact the customer or your front-end, they are all about the inner workings of your shop, and even your business itself. In effect, these pages enable you to set how the PrestaShop software will work for you, and how you and your team will be able to use it.

This chapter contains the following sections:
