

## **\_Misc**

This folder is for files of miscellaneous formats (ergo, not images, not PDFs, not PPTs).

You can make a link to a file directly into a page — there's no need to attach them to the page itself. Here's an example of how to do that:

```
!_Misc^myFile.mwb!
```

<b>File</b>	<b>Modified</b>
File pdm-1.5.mwb	Jun 06, 2012 by Xavier Borderie
PNG File pdm-1.5.png	Jun 06, 2012 by Xavier Borderie
PNG File pdm-1.5-800.png	Jun 06, 2012 by Xavier Borderie
