Managing Customers

You have to take good care of your customers. That means making sure their profile contains all the information you need to have a package shipped to them, following up on their support requests, creating special discount groups, knowing which orders have been completed and which have been abandoned, and much more.

The "Customers" tab allows you to follow the creation of user accounts on your site.

ID	Gender	Last Name	First name	E-mail address	Age	Enabled	News.	Opt.	Registration	Connection	Actions
1		DOE	John	pub@prestashop.com...	41	✓	✓	✓	2011-06-01	2011-06-01 15:33:15	

You can edit the account information for each of your customers, and even disable them, by clicking on the green checkmark or red "X", in the table shown. You can enable or disable an account, subscribe or unsubscribe them to an e-mail list, or subscribe or unsubscribe a customer from the e-mail list of a partner group.

Customers options

At the bottom of the tab, you can find a "Customers options" section with a single option: "Regenerate password". You can choose to limit the frequency at which a customer can generate a new password for his or her account. By default, it is set at 360 minutes – 6 hours.

One last section is available: "Set required fields for this section". Clicking the link opens a form where you can select additional fields to mark as required when a user creates an account.

The various sections provide you with some key data on the user:

- Customer information, first and last name, e-mail address, sex, sign-up date, last site visit.
- Information regarding his subscription to the store's newsletter and subscription to ads from partnering companies, his age, date of last update, and whether or not the account is active.
- Private notes from the store's employees (i.e. you or your team)
- Messages sent by the customer to the store's team.
- The group to which the customer belongs.
- Summary of customer's past purchases. Amount spent, type of payment, order status. For more information about each order, click on the button in the "Actions" column.

- Entered addresses.
- Available vouchers.
- When your customer is on your site, you can see what he is adding to his cart in real time.
- Previous connection to the shop.

Addresses

By clicking on the "Addresses" sub-tab you will have access to the list of your customer's home addresses. You can edit them using the "Edit" button, or delete them altogether.

Groups

PrestaShop gives you the ability to offer your customers certain privileges, by assigning them to Groups. You can create as many customer groups as you like.

To use this feature, click on the "Groups" sub-tab. The page below will appear.

By default, only one group is defined, "Default". It applies to all users.

Page 1 / 1 | Display 50 / 2 result(s) Reset Filter

[Save](#)

* Required field

- In the "Name" field, indicate the name that you would like to give this group.
- In the "Discount" reduction, indicate the discount to apply to members of this group for all products.
- PrestaShop is frequently used in the Business to Business (B2B) sector. Therefore, you can create a group of customers who can buy products without paying the tax. The "Price Display Method" drop-down menu gives you a choice between "tax included" and "tax excluded".
- Validate your settings by clicking "Save".

You can add a customer to a group of your choice by clicking on the Edit icon on the corresponding line. Then, on the "Groups" table, select the group to which you want your customer to belong.

Searching for a Customer

Searching for a customer on your PrestaShop store can be done two different ways.

The first method is to enter the information you have into the PrestaShop search bar, which is found in the top left of your Back Office. You can indicate:

- ID (the numbers that is assigned to the customer in the database).
- First or last name.
- E-mail address.

[Search](#)

Select "customers" from the drop-down menu and then click "Search".

The results, if any, are then presented.

You can see ID, gender, e-mail, birthday, registration date, number of orders and whether or not the customer is active.

The second method consists of going to the customer tab, and listing all of your customers.

From there, you can complete the fields to filter your results according to the following criteria: ID, Sex, First Name, Last Name, e-mail address, age, registration date, subscription to the newsletter, subscription to partnering ads, last connection date. Enter your criteria and click the "Filter" button in the top right-hand corner of the table.

Shopping Carts

PrestaShop contains some very powerful marketing features that enable you to see the products that customers are adding to their carts in real time. There are two ways to achieve this.

1. Consult their carts in detail directly from the customer information file by clicking on the button from the customer profile in the "carts" section.
2. Go to the "Carts" sub-tab, under the "Customer" tab. You will see all of the shopping carts that have items in them. For instance, you can filter your results by the date that they were added. You can see the profile of the customers who check your site out, and, if you wish, use this information to improve your commercial performance.
